

Open Space Amenities

Well-designed open space, landscaping, or other exterior design amenities should be provided in appropriate locations along the building edge to soften the areas between paved areas and buildings. These elements define areas such as building entrances, pedestrian activity areas, focal points, and the street edge.

Which open space amenities are important to the character of the Downtown Corridors? See examples below.

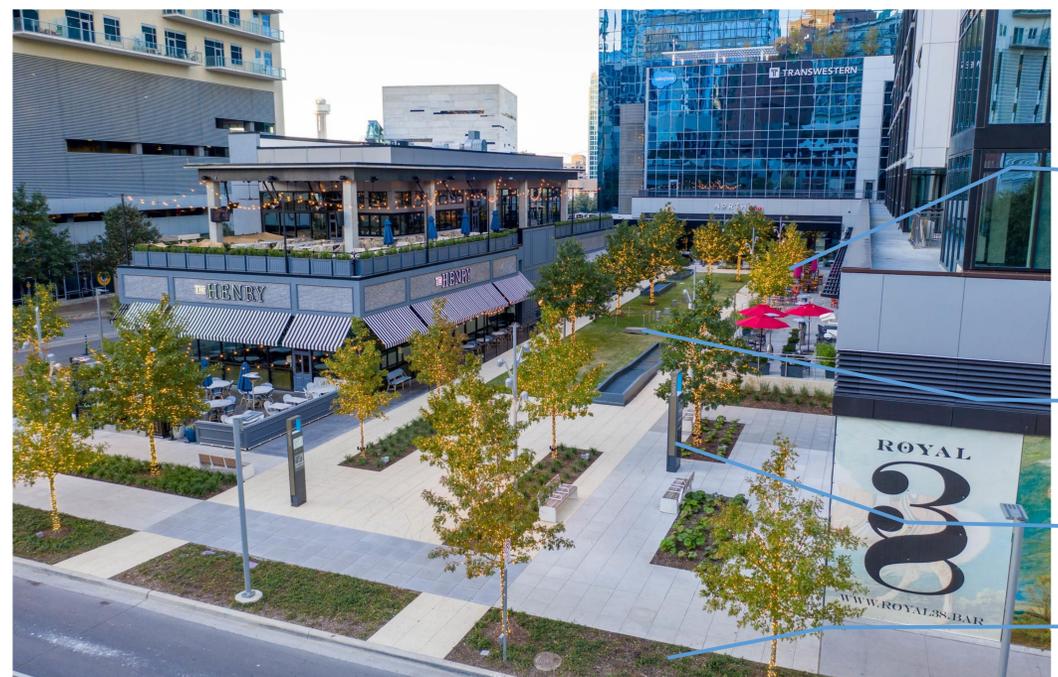

- Tree Canopy
- Outdoor Seating
- Accent Landscaping

- Outdoor Seating
- Street trees and vegetation

- Canopies and Awnings
- Outdoor Seating
- Centralized Public Space
- Bike Parking

- Outdoor Dining
- Centralized Public Space with Seating
- Pedestrian Signage
- Street Trees
